

shower cabin

Crystal 1000

1000mm x 1000mm x 2300mm

The Crystal 1000 is shallow tray corner (quadrant) 1000 x 1000mm shower cubicle. Comprising a built in overhead shower, hand shower with flexible hose and riser bar and 3 body jets. The walls of the cubicle are glass and the unit also has a glass shelf inside for toiletries. Also inside the Crystal 1000 shower room is a seat to use when you are using the body jets and which can be flipped up when not in use. The back walls are darkened mirrored glass. The front glass panels and doors are clear glass. The Crystal is available in 800mm, 900mm and 1000mm quadrant options to suit most bathroom spaces.

PRICE: **£499.99**

For more information on this model please visit our website. To order, please call us on **01429 262 845**

This shower requires between 1 and 3bar of water pressure and can be supplied from a combi boiler, pressurised system etc. For gravity fed or low pressure, installing a twin impellor pump is recommended. Where water pressures are not balanced (of equal pressure) fitting a Pressure Equalising Valve is required to protect the

Thermostatic Valve from damage. Our showers are designed to be freestanding, water should be made available to the shower into the corner (if corner fitting) or central at the back (if the shower fits against one wall) and be fed to a point approximately 1mtr from the floor and finished ready for 15mm compression fittings.

Bathtek showers are supplied ready to build. All boxes are able to enter through regular doorway openings, details of carton sizes are available on our website. Please also consider access for the boxes up and round stairwells etc. For full, detailed installation requirements of all Bathtek showers, please call our customer service department on 01429 262 845 or visit our website at www.bathtek-hartlepool.com

The Hand Shower. All Bathtek Showers are fitted with a multi jet hand shower, that allows you to choose the type of spray you want when showering. Choose from a powerful focused blast through to a gentle spray simply by rotating the shower head.

The Crystal is available in 800mm, 900mm and 1000mm options
